Remarks On board Sunday Nov 7th

AM first part moderate breez from the S & S S W with fin
weather we are working to the S.W. by tacking ofte as wind veers from
cous to another Midder part continu at 6 AM saw a large school
of Sperm Whales off on Starbd beam heading S W at 7 hour forth
they were very wild & shy & as the Capt boat had the chance to go
out to the whales first I was working carefully when Mr Mary
a man that was acting second mate under him to full his boat
by me I thought it an impertinent act & would drive the whales
off I requested him to drop astern of me a little way & let me work
on the whales as two boats rushing on would be sure to scare them
I struck a whale in a few minutes & the his boat was half a mile off
him in consequence of his getting mad by my request the rest of whales
came up along side of them on that I was fast two & stairs they
saw him but never offer to put his hand to an oar to get the
hand did all he could to prevent coming to me & when he
got when I was he ask me in a very insolent way if I thought it
the could kill one if he fastened I said everything I could to
urge him to go on & strike a whale that was front side to him
as there was two that stage shun long enough to faster four or five
times & after he had got over his mad fit he struck a little off
by his refusing to do as he was told I lost some 4 or 500 Dollars
worth of oil & the boats come on board I ask him what he meant
he said he ment just what he said & did that if that was
the way I whale it he would not whale it any more for me I told
him unless he acknowledge he did wrong & would do bet
there was nothing more for him to do on board the Brig no question
he said he should not act knowledge nothing in consequence of
which I put of duty Mr

Brig Hopeton on Whaling Voyage

Remarks On Board Wednesday Nov 24th
the Brig lying at anchor at St Helena Roadstead & making preparations to leave to morrow the 25th when five men refused doing duty any more on board said Brig Hopeton & wishes for a discharge & for so doing said they considered the voyage up for what they shipped for & for other slight reasons nothing before this time occured that shown but what they were all well satisfied with the voyage & but after having 3 days liberty each man & all the money they could get they conspired & joined together & pledged themselves together not to go out in said brig. Capt Delano appealed to the consul for assistance & advice he told him to ask them to go to duty again & if they still refused to duty I could put them in Irons I again went on board & asked them if they would go to their duty they said they would not. their names are as follows

John Turner — James Markel — James Dolano

Thomas Shaw — & Jeremiah Canaday I order the the mate to put John Turner in Irons I called him aft & took hold of him to put Irons on him when he refused to have them put on & called for the 4 to assist him they all came aft in a mutinous manner said I should not put him in Irons without I could produce something to show that the consul ordered me to do so in the mean time said turner issued all manner of threats upon my life such as he would cut my heart out & eat it if he could get a chance &c

I called the consul on board & after reading the Shipping articles to them & the penalty of the law for such conduct they all turned to their duty except Jeremiah Canaday he said he would not I put him Irons — the day close without any other trouble

Remarks On Board Tuesday 15th of February

[illegible] for when I [illegible] on [illegible] come up to him with my skiff [illegible] the Boat Steerer Andrew Smith took paddle to paddle the boat I spoke to him & told him not to paddle for the whale was too far of for us to get to him before he was gone he got mad at what I said & threw the paddle down in the boat [illegible] as he came [illegible] I spoke to him & ask what he throughed the paddle in that manner for he says becaus I felt disposed he says that I have not tried to whale it & would not try to get oil I went forward to send him aft in boat & as I went forward he rushed at me with his fist clenched & struck me a blow on my face when we clenched together & had a scuffle & I struck him on the mouth in the scuffle then in the [illegible] his man Smith said every thing insulting that a man could say

he said that I had now away the voyage had lost 200 bbls Sperm oil have ran into a school of Sperm whales on the Next ground & gabbing them from the off & that I had cheated him out of his [illegible] the said Smith has always lived in the cabin & he treated me but has always been in league with several men forward & combined together for all purposes, while the said Smith was in the scuffle John Freeman made a paddle at me and the thoughts & threatened to strike me & said & said he would cut my damd head out [illegible] a good point to [illegible] any account of insolence [illegible] I [illegible] called all hands off & told them what had took place & then [illegible] put in Irons for ~~any~~ the conduct & threats made towards me when I ask two of the men that was in the boat James Delano & Antonio Pires

Abagi Island W.I.

after coming on board in the presence of all hands about the affair they said they did not know any thing about it but Sutton acknowledges the next morning that said turner took a paddle to strike me & use those threats which has been sat down & fine on matter of an abon Islands said all the remarks been sat down was so about Smith & Turner & for Smith striking me & using disrespectful language & swearing he never would serve one of the heads of the boat or anybody else he was a mind to & turn his hands in to the Government as a hand & also for missing three whales in one day in not hastening to the said Smith was a boat steer
